"phone_number" : "971527654321"  
  
},  
  
"wam_id" : ""  
}
```

Header Details:

The header “X-Bayut-Signature” Is created with the below formula to help validate the authenticity of the payload -

```
md5($secret_key . $body, false)
```

Where, “\$secret_key” will be provided by us once we register your API endpoint in our system and “\$body” is the whole payload.

Needed Detail:

To complete the API integration provide the specific API Endpoint URL where you wish to receive the data to support@bayut.com.
